CONTENTS OF VOLUME 67

(*All rights reserved*)

SOUTHGATE D.A.T. The development of nutritional concepts. 1

HEMILA Harri O. Vitamin C and the common cold. 3

CREVEL R.W.R., FRIEND J.V., GOODWIN B.F.J. & PARISH W.E. High-fat diets and the immune response of C57 Bl mice. 17

BRODERICK Glen A. & CLAYTON Murray K. Rumen protein degradation rates estimated by non-linear regression analysis of Michaelis–Menten in vitro data. 27

METGES Cornelia C., SCHMIDT Hanns-Ludwig & EICHINGER Hans Use of naturally enriched mixed food in ^{13}C breath tests applied in young sucking calves. 43

YUSTE P., LONGSTAFF M. & MCCORQUODALE C. The effect of proanthocyanidin-rich hulls and proanthocyanidin extracts from bean hulls (*Vicia faba* L.) on nutrient digestibility and digestive enzyme activities in young chicks. 57

DE VRESE Michael, KELLER Birgit & BARTH Christian A. Enhancement of intestinal hydrolysis of lactose by microbial β-galactosidase of kefir. 67

SAVORY C.J. Gastrointestinal morphology and absorption of monosaccharides in fowls conditioned to different types and levels of dietary fibre. 77

SAVORY C.J. Enzyme supplementation, degradation and metabolism of three U-^{14}C-labelled cell-wall substrates in the fowl. 91

SAVORY C.J. Metabolic fates of U-^{14}C-labelled monosaccharides and an enzyme-treated cell-wall substrate in the fowl. 103

HIGHAM S.E. & READ N.W. The effect of ingestion of guar gum on ileostomy effluent 115

CHOCT M. & ANNISON G. The inhibition of nutrient digestion by wheat pentosans. 123

GIDENNE T. Effect of fibre level, particle size and adaptation period on digestibility and rate of passage as measured at the ileum and in the faeces in the adult rabbit. 133

SOUTHGATE D.A.T. Images of nutrition. 147

JACKSON Dorothy A., IMONG Stella M., WONGSAWASDII Lumduan, SILPRASERT Adung, PREUNGLAMPOO Sakda, LEELAPAT Posri, DREWETT R.F., AMATAYAKUL Kosin & BAUM J.D. Weaning practices and breast-feeding duration in Northern Thailand. 149

PIERS L.S., SOARES M.J., MAKAN Tania & SHETTY P.S. Thermic effect of a meal: 1. Methodology and variation in normal young adults. 165

PIERS L.S., SOARES M.J. & SHETTY P.S. Thermic effect of a meal: 2. Role in chronic undernutrition. 177

PIERS L.S., SOARES M.J., KULKARNI R.N. & SHETTY P.S. Thermic effect of a meal: 3. Effect of dietary supplementation in chronically undernourished human subjects. 187

MACLEOD M.G. Energy and nitrogen intake, expenditure and retention at 32° in growing fowl given diets with a wide range of energy and protein contents. 195

SCHREURS V.V.A.M., BOEKHOLT H.A., KOOPMANSCHAP R.E. & WEIJS P.J.M. The metabolic utilization of amino acids: potentials of $^{14}CO_2$ breath test measurements. 207

VALETTE P., MALOUIN H., CORRING T., SAVOIE L., GUEUGNEAU A.M. & BEROT S. Effects of diets containing casein and rapeseed proteins on the enzyme secretion from the exocrine pancreas in the pig. 215

STERCK J.G.H., RITSKES-HOITINGA J. & BEYNEN A.C. Inhibitory effect of high protein intake on nephrocalcinogenesis in female rats. 223

KASKE M., HATIBOGLU S. & ENGELHARDT W.V. The influence of density and size of particles on rumination and passage from the reticulo-rumen of sheep. 235

HUHTANEN Pekka & KHALILI Hannele The effect of sucrose supplements on particle-associated carboxymethylcellulase and xylanase activities in cattle given grass-silage-based diet. 245

MIURA Yutaka, KATO Hisanori & NOGUCHI Tadashi Effect of dietary proteins on insulin-like growth factor-1 (IGF-1) messenger ribonucleic acid content in rat liver. 257

SAMULITIS-DOS SANTOS Betty K., GODA Toshinao & KOLDOVSKY Otakar Dietary-induced increases of disaccharidase activities in rat jejunum. 267

PAYNE-ROBINSON Hazel M. & BROWN Richard The effect of malnutrition on insulin binding to rat erythrocytes. 279

MELTZER Helle M., NORHEIM Gunnar, LØKEN Elin Bjørge & HOLM Halvor Supplementation with wheat selenium induces a dose-dependent response in serum and urine of a Se-replete population. 287

RUBIO Luis A., GRANT George, BARDOCZ Susan, DEWEY Peter & PUSZTAI A. Mineral excretion of rats fed diets containing faba beans (*Vicia faba* L.) or faba bean fractions. 295

SOUTHGATE D.A.T. The ethics of peer review. 303

THIAGO L.R.L., GILL M. & DHANOA M.S. Studies of method of conserving grass herbage and frequency of feeding in cattle. 1. Voluntary feed intake, digestion and rate of passage. 305

THIAGO L.R.L., GILL M. & SISSONS J. Studies of method of conserving grass herbage and frequency of feeding in cattle. 2. Eating behaviour, rumen motility and rumen fill. 319

HUNTER R.A. The effect of the α_2-adrenergic agonist, guanfacin, on the energy metabolism of steers fed on low-quality-roughage diets. 337

DEWHURST R.J. & WEBSTER A.J.F. Effects of diet, level of intake, sodium bicarbonate and monensin on urinary allantoin excretion in sheep. 345

SEAL C.J., PARKER D.S. & AVERY P.J. The effect of forage and forage–concentrate diets on rumen fermentation and metabolism of nutrients by the mesenteric- and portal-drained viscera in growing steers. 355

RASMUSSEN O., GREGERSEN S. & HERMANSEN K. Influence of the amount of starch on the glycaemic index to rice in non-insulin-dependent diabetic subjects. 371

VAN LITH H.A., MEIJER G.W., VAN DER WOUW M.J.A., DEN BIEMAN M., VAN TINTELEN G., VAN ZUTPHEN L.F.M. & BEYNEN A.C. Influence of amount of dietary fat and protein on esterase-1 (ES-1) activities of plasma and small intestine in rats. 379

HOCKING P.M. & SAUNDERSON C. Linda Muscle protein degradation assessed by N^t-methylhistidine excretion in mature White Leghorn, dwarf broiler and normal broiler males maintained on either low- or high-protein diets. 391

LEIBHOLZ Jane The availability of lysine in diets for pigs: comparative methodology. 401

FAIRWEATHER-TAIT Susan J., FOX Thomas E., WHARF S. Gabrielle, EAGLES John & KENNEDY Hugh Zinc absorption in adult men from a chicken sandwich made with white or wholemeal bread, measured by a double-label stable-isotope technique. 411

SANDERS Alan M., EDWARDS JR Hardy M. & ROWLAND III George N. Calcium and phosphorus requirements of the very young turkey as determined by response surface analysis. 421

SIMPSON Robert J., SIDHAR Sanjiv & PETERS Timothy J. Application of selective extraction to the study of iron species present in diet and rat gastrointestinal tract contents. 437

BATES C.J., COWEN T.D. & EVANS P.H. Effect of vitamin C on sorbitol in the lens of guinea-pigs made diabetic with streptozotocin. 445

KELLY Frank. J., SAFAVI Morteza & CHEESMAN Kevin H. Tissue α-tocopherol status during late fetal and early neonatal life of the guinea-pig. 457

BRAVO L., SAURA-CALIXTO F. & GONI I. Effects of dietary fibre and tannins from apple pulp on the composition of faeces in rats. 463

GOODLAD J.S. & MATHERS J.C. Digestion of complex carbohydrates and large bowel fermentation in rats fed on raw and cooked peas (*Pisum sativum*). 475

ANDRIEUX Claude, DELAHAYE PACHECO Emperatriz, BOUCHET Brigitte, GALLANT Daniel & SZYLIT Odette Contribution of the digestive tract microflora to amylomaize starch degradation in the rat. 489

HUNTER B., MCDONALD G.S.A. & GIBNEY M.J. The effects of acute and chronic adminstration of *n*-6 and *n*-3 polyunsaturated fatty acids on ethanol-induced gastric haemorrhage in rats. 501
